Yelm, WA 98597*

To: Washington State Department of Ecology  
Agencies with Jurisdiction

From: Grant Beck, Community Development Director

Date: August 14, 2009

Subj: Withdrawal of MDNS

The Mitigated Determination of Non-significance dated May 1, 2009, regarding Yelm's application to the Washington State Department of Ecology for additional water rights (Ecology application numbers G2-29084, G2-29085, and G2-29086) is hereby withdrawn by the City of Yelm.

This action has been taken after the Washington State Department of Ecology indicated that it will not take action on Yelm's applications for additional water rights in 2009. Withdrawal of the MDNS also provides additional time for the City to continue its work alongside its watershed partners in refining the proposed water rights mitigation plan.

You will be notified when the City re-issues a threshold determination in this matter.
