Subject: big box stores

AUG 30 2005

To Whom It May Concern,

I am greatly opposed to any construction of a big box store in Yelm. It would drastically impact the already disasterous traffic situation and drive out already existing small business as well as curtail any new business from having a fair chance of survival.

We love our community and want to encourage growth that will enhance the area in a positive way.

Please consider the impact of this proposal from all logical standpoints.
