**Subject:** meeting

Please submit my email at the meeting. I am unable to attend.

I am very much against having any big box store, such as Walmart in my community. We are already dealing with major traffic problems. I think it would take a huge toll on the water supply and create a lot of pollution. I also know that it would put our own small business owners out of business. How can they compete with such a giant? Take a look at the statistics. Please reconsider this application.
