Subject: Yelm's water

Dear Mr. Beck,

As a land owner of the Yelm area, with a private well on my property, I am extremely concerned with the plan of allowing the potential of water draw of almost 4200 acre feet for the town of Yelm.

This could affect everyone in the rural area around by dropping their water level in their well. As a citizen of the area, I would want there to first be complete studies of the aquifers and the wells so we all would know the impact of drawing this much water before we allow it!

I am also concerned that Yelm is placing all of the well's in one area, and that that area isn't even owned by anyone right now. This seems silly and set us up for paying huge prices to someone who buys the property.

Please stop this plan.

~Cheryl
