**Subject:** Yelm water

Mr. Beck,

As a resident living off of Clark Rd. in the city of Yelm, and having a local business, I directly oppose this choice to try and avoid having further environmental water experts asses the water development plans.

I am not against expansion in the most responsible way we the people can devise, and nothing less than the most responsible way. Water is one of our most basic sources of life.

We cannot allow this development plan to over estimate, and jepardize the allready existing communities lives!

Amy Hewitt L.M.P.
