

Grant Beck
 Director of Community Development
 Department
 City of Yelm

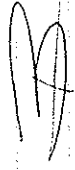

Dear Mr. Beck;

I am writing this letter
 because I am extremely concerned
 over the recent water situation in
 the city of Yelm. I am a citizen
 of Yelm and find it rather
 alarming to hear about the
 city's proposal to increase the
 water output by 5 times.

I am a long time (20 year)
 student of RSE and am
 concerned of the effect this change
 will have on my school and it's
 water supply; not to mention the
 residents w/in the area that will

be directly impacted.

I am curious as to why
 this has not been published
 on a larger scale, so that
 the citizens of Yelm could
 have a voice in the outcome?

Sincerely,

 Barbara Wade

P.S.
 Thank you for your time.
