Grant Beck

Dir. Community Dev. Dept
City of Yelm

Dear Mr. Beck

I am contacting you as a concerned citizen of Yelm. I am very surprised to learn of the City's proposal to increase withdrawal quantities of water by 5 fold! This will have a huge impact on the residents in the desensated area.

Although my personal property will not be affected my school property will be most definitely adversely affected (RSE Campus)

I am also very disturbed by the low profile this proposal has enjoyed. The Citizens of Yelm have a right to know what the City leaders are doing and should have a voice in what is decided.

Clare Wade
