**Subject:** Please Please Please Protect my water...

We as home owners that are actually ON the dividing line between City & County property are very concerned about our water levels. Our well at 115 ft is about 15 gallons per minute. Please be responsible to us by doing a study to insure we are not left dry by the City of Yelm's efforts to support this massive 5000 home PRIVATE development....Please act before it is too late and we are all able to achieve results good for everyone.

Thank you for your consideration concerning MY WATER SUPPLY that is essential to my life.
