Subject: Water Rights/City of Yelm

Grant Beck
City of Yelm Community Dev. Dept.
Yelm, WA 98597

Dear Mr. Beck,

I am writing to inform you that I do not agree with the City of Yelm's approach to water resource planning as it fails to protect the public interest, I feel that an Environmental Impact Statement should be required to protect the local aquifer.

I am a student at the Ramtha School of Enlightenment and our campus stands to be affected by an over pumped local aquifer. Who is going to protect the public interest? City officials seem to be sidestepping that obligation. Perhaps you can reach out to the public and independent professionals for their opinions.

Sincerely,

Madeleine Bongiorno
