Subject: Yelm's water rights

Dear Mr. Beck,

I am writing in regard to the City of Yelm's constant disregard to it's citizen's water rights. I've read the details of them trying to substitute a Mitigated Determination of Non-Significance (MDNS) for an Environmental Impact Study (EIS) regarding their proposed five fold increase in water withdrawal quantities and I think it is wrong.

The impact this has to the City of Yelm's citizens it atrocious. Private wells could dry up, and then they would be forced to drill deeper to have running water, something that should be free for all people. The city of Yelm seems to want to sell water rights to private developers. Yelm does not need more growth when there is not enough water for it's citizens already.

I am asking you to please put an end this, and do everything in your power to protect the citizens of Yelm and their water, and water rights.

Thank you.

Sincerely,

Melissa Graham
