**Subject:** Yelm Water Plan

As a resident of the city of Yelm, I am writing to ask that the city of Yelm honor its obligation to its residents to have an Environmental Impact Study (EIS) regarding their proposed five-fold increase in water withdrawal quantities. Everyone who lives here knows that this will have profound impacts on the environment, OUR environment and our water sources, quantities and pricing should be protected. The residents who live in this area now, paying taxes now should be the priority, not potential future residents.

Please advise any further updates.

Thank you kindly for your attention and action on this matter.

Audra Sheedy  
City of Yelm Resident
