Subject: concerned citizen

L.S.,

In this email I would like to express my deep concern for the procedure that is in progress regarding the pumping of 5 times more water in the area I have my home. I am a resident on 93rd street, Yelm. My well is my only source of water and my sovereignty and well being depends on it. I want the impact on my well to be taken into account by the City through first of all an Environmental Impact Study, before the City moves forward with anything. The pumping of an extra 5 times more water in my area will likely have an impact on the aquifer and I feel the City should inform and protect us against any such impact.

I hereby, as a homeowner, demand a Environmental Impact Statement, before any more decisions are made by the City of Yelm.

Regards,

Don
