and copy to  
**Grant Beck Director of Community Dv. Dept**  
City of Yelm  
PO box 479 Yelm WA 98597

I oppose and appeal, the plan of City of Yelm to pump so much water, ( 7,500 Gallons per minute Page 6 on their mitigation plane) without even looking into the affect that will do to private well owner like myself.

City of Yelm does not consider the best public interest as they should since they are public official elected by the public to serve the public

who will be liable, for dried up and or damaged water levels for home owner in the Yelm surrounding area?
