Subject: protest-apeal against Yelm Water Well expansion

**Dear Jay Manning !
Dear Mary C. Selecky !
Dear Grant Beck !**

I live in Yelm - within the city limits - and hereby protest against the proposed expansion of Yelm City Water.

I support growth - but regulated and natural growth - of our community!

To drill a giant well that could live dozens if not hundreds of Yelm and Yelm area residents dry and without water is unacceptable!

To increase the water draw on the aquifer in such a giant step is unacceptable!

To use city funds for (very obvious) support of large land developers (they are the ones that need more water- the city of Yelm for right now has PLENTY - thank you) is unacceptable - as public servant - means to serve the greatest good for all residents !

To increase the water bill of all Yelm area residents to support this proposed new well (by up to 3 fold) - is absolutly unacceptable !

I hereby protest against this proposed project and will increase my measures of protest if not answered/heard/ intelligently responded !

And I hereby plead to your sense of rightousness and original idea of public service when you took office - to serve the greatest number of people to their own benefit....

yes Yelm is expanding - and that is good

but to support in anyway exponential growth like that is unacceptable - when you look to nature you only find that kind of growth in two things - bacteria and cancer

please stop this nonsensical endeavor of the proposed new well in Yelm

thank you
