**Subject:** Opposed to Yelm's current plan of water rights acquisition

Mr Grant Beck,

Yelm's proposed plan to obtain more water rights, which are no longer required for Yelm at this time, represent a gross overstatement of the City of Yelm's authority. Circumstances have changed and the City of Yelm must reevaluate, along with the Department of Ecology, property owners, and related jurisdictions (the City of Rainier, for one), any additional acquisition of water rights for the city.

As a nearby resident of Rainier, I am very concerned for the City of Rainier's water supply, which is also dependent on local aquifers.

Sincerely,  
Jean Roberge  
Rainier
