Subject: Yelm Water Plan

Hello,

The reason for this E-mail is to notify you about my disagreement with the proposed Yelm water plan. Not only is this something that concerns the public, but we have not even been told.

We know that water shortage is a TRUE and BIG issue in this county, together with climate change. How is an EIS Non-Significant? Now more than ever we should take into consideration the public's opinion for these types of plans, because it affects EVERYONE. What will happen to those that currently have wells and due to this inconsiderate move their wells will go dry.

As a citizen of the United States of America and resident of the Yelm, WA I would like to appeal this proposition.

Sincerely,
Madeline Villar
