Subject: City of Yelm, WA's water supply concerns

Friday, May 22, 2009

To whom it may concern:

I DO NOT agree that the city of Yelm, WA's approach to water resource planning has been adequate as it fails to protect the public interest. Even though I live outside of the proposed affected area which would increase five-fold in water withdrawal quantities, I do attend Ramtha's School of Enlightenment in Yelm which definately would be affected by this water withdrawal. I attend events at the school regularly and the water available on the campus is absolutely necessary.

I strongly urge you to require the City of Yelm to have an Environmental Impact Study completed in order to protect the local aquifer. The City of Yelm is trying to substitute a Mitigated Determination of Non-Significance for an Environmental Impact Study.

Please act swiftly.

Sincerely,

Maggie Sayer
