Subject: Yelm Water System

As a student of Ramtha School of Enlightenment and a friend to many in the target area, I am concerned about the current water issue in Yelm and the possibility of private wells running dry.

The city of Yelm continues to act on behalf of expansion and development at any cost, ignoring citizen input regarding traffic and, in this case, water issues. Therefore I am appealing to you.

I am requesting a thorough Environmental Impact Study, to provide citizen input and professional assessment independent of Yelm city officials. A Mitigated Determination of Non-Significance is not adequate for this important issue.

Please help us stop the irresponsible lack of concern for future water availability to the people of Yelm.

Regards: Marian Clements and David Biering
