To whom it may concern besides myself:

I write today to express my deep concern at the possible negligence of the City of Yelm for my wellfare and drinking water if they substitute a Mitigated Determination of Non-Significance (MDNS) instead of an Environmental Impact Study (EIS), regarding their proposed five-fold increase in water withdrawal.

My well is my water source. As a property owner in the vicinity to be affected, I request an Environmental Impact Statement be done before any further decisions are made by the City of Yelm.

Regards,

Marita Rose Bott
