## GENERAL PROVISIONS APPLICABLE TO ALL PERMITS

In accepting this permit, the petitioner, his successor and assigns, agree to protect the **CITY OF YELM, WASHINGTON**, and save it harmless from all claims, actions or damages of every kind and description which may accrue to or be suffered by any person, or persons, corporation or property by reason of the performance of any such work, character of materials used or manner of installation, maintenance and operation or by the improper occupancy or rights of way or public structure and in case of any suit or action is brought against said City for damages arising out of or by reason of any commencement of such action, defend the same at his or their sole cost and expense and will satisfy any judgment after the said suit or action shall have finally been determined if adverse to the said City.

If the work done under this permit interferes in any way with the drainage of the area, the grantee shall wholly and at his own expense make such provisions as the City may direct to correct said drainage problems.

Upon completion of said work herein contemplated, all rubbish and debris shall be immediately removed and from the roadway and roadside shall be left in a neat and presentable condition that is satisfactory to the City.

The party or parties to whom this permit is issued shall maintain at his or their sole expense the structure or object for which this permit is granted in a condition satisfactory to the **CITY OF YELM**.

The **CITY OF YELM** may revoke, annul, change, amend, amplify, or terminate this permit or any of the conditions herein enumerated if grantee fails to comply with any or all of its provisions, requirements or regulations as herein set forth or thru willful or unreasonable neglect, fails to heed or comply with notices given or if the utility herein granted is not installed, operated, and maintained in conformity herewith or at all or for any cause or reason whatsoever.

All work areas shall be adequately barricaded according to MUTCD Standards. Barriers shall be properly lighted at night.

All trenches shall be backfilled with selected backfill materials unless otherwise directed by the Engineer.

**PAVEMENT REPLACEMENT:** Asphalt pavement shall be replaced to a minimum depth of four (4) inches thick or match to the existing pavement whichever depth is greater and to the dimensions specified by the Engineer. In gravel alleys the permittee shall replace base and surface rock.

All work shall be conducted using current **WISHA/OSHA** regulations. Particular attention shall be paid to the requirements as they pertain to work in trenches, electrical work, work in high places and to safety apparel such as, hard hats and safety vests.

All work shall be completed to City Standards as set forth in the City of Yelm Development Guidelines, and policies.

The **PUBLIC WORKS DEPARTMENT** office (360-458-8406) **must be contacted for inspections 24 hours before work commences.**
